

How to Write a Storm Water Pollution Prevention Plan (SWPPP)

Topics covered will include:

- A review of pertinent laws and regulations.
- A review of the SWPPP and its required elements.
- Necessary data for production of a SWPPP.
- Resources for the SWPPP author.
- Permitting requirements.
- Choosing and using adequate BMPs.
- Writing the plan.
- Assembling the SWPPP.
- DOT, MOA and USACE requirements.
- Maintaining the SWPPP.

***Prerequisite to attend class:** must have completed and passed AK-CESCL (card number required to register)

Alaska Certified Erosion and Sediment Control Lead (AK-CESCL) Storm Water Training Program

The Associated General Contractors of Alaska, working with the USACE Alaska District, ADOT & PF, ADEC, ADNR, ARRC, MOA, and other Alaskan construction industry representatives have developed a Certified Erosion and Sediment Control Lead (AK-CESCL) training program for Alaska.

The course is designed for commercial and residential builders, and explains the erosion process and how to obtain and comply with the EPA NPDES stormwater permit. The course also describes the key elements of a Stormwater Pollution Prevention Plan (SWPPP) and provides detailed instructions on how to maintain a SWPPP, select, install and maintain stormwater Best Management (BMP's). AGC's AK-CESCL certification class will give you the tools you need to comply with federal, state, and local stormwater requirements. Also, this AK-CESCL class meets requirements for recertification.

Construction Quality Management for Contractors

Construction Quality Management for Contractors is a course developed by the Corps of Engineers specifically for contractor's to improve their ability to provide a quality product. It has been developed to help familiarize contractor personnel with the Corps Quality Management concept and procedures.

This course introduces the contractor to the following items:

- Quality Control
- Contractor's Quality Control Responsibilities
- Quality Management Planning
- Pre-construction Conferences
- Coordination Meetings
- Submittal Process
- Three Phase Control System
- Documentation Requirements
- Testing Requirements
